Bring Yourself, A Friend, Binoculars and Cameras!
Explore and be Inspired by the Natural World of
Franklin Park on the Spring Bird Walk with:

Eduardo del Solar, Nature Photographer

Eduardo del Solar, a highly respected Nature Photographer, will host this year's Franklin Park Spring Bird Walk. A retired Boston Public School teacher and native of Lima Peru, Eduardo has immersed himself in the world of nature photography since 2005. He has done nature photography projects for the Audubon Boston Nature Center (2005-06), Plymouth Long Beach environmental agency Goldenrod (2011-13) and the Birds of the Americas (2007-on). The nature photographic documentation projects have taken him to Peru, Costa Rica, Galápagos, Canada, Iceland, the United States Southwest and New England. "I find myself quite ready to go out at, or before, sunrise. These are times when the light seems to be so sweet and the natural world is so transformed." Web site: <http://delsolar.org>
